Allowable Subject Matter

1. Claims 1-37 contain allowable subject matter over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a digital video recorder for use with a monitor and a set top box, the set top box generating graphical user interface and including a DVR interface. The independent claims identify the feature of "the DVR comprising a DVR controller for generating a DVR GUI; and in response to user input, communicating with the STB to coordinate whether the STB GUI or the DVR GUI is displayed on the monitor". The closest prior art, Yap et al discloses a conventional digital video recording apparatus including STB and GUI, either singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Yap et al discloses a conventional digital video recording apparatus including STB and GUI.

Elliot et al discloses a set top box connecting to a DVR.

Miller et al discloses a system for set top box channel state feedback.
